EXPERIENCE

2017 – Current

Freelance Developer,

Through this I have been able to sharpen my skills in IoT and UI/UX development for both web and mobile applications, security integrative measures, API integration, API creation, integration and authentication, dynamic content generation.

2019-current

Developer & Administrator, AUSAA Kenya Society

Assigned a role to develop society's system. Here I was able to develop and deploy a world class company website with the following features:

- User authentication
- Dynamic documents of trade generation
- Email integration
- Cloud backup
- CRUD operations

Together with my assistant we have worked and developed a mobile app offering additional services offline for members. By it I have learnt, developed and deployed:

- API integration
- Contribution tracking
- Automated response
- In-app conversation, encrypted end to end
- Auto-receipting
- M-Pesa integration
- Authorization

2023

Developer & System Administrator, Bevina Investments Limited

Took a two months contract to develop company's system. Here I was able to develop and deploy a world class company website with the following features:

- User authentication
- Dynamic documents of trade generation
- Email integration
- Cloud backup
- Authorization

EDUCATION

2017 - 2023

BSC ELECTRONICS AND COMPUTER ENGINEERING, JKUAT

Through various lessons I managed to harness the knowledge and skills around computer systems and electric system. In addition, I was introduced to basic programming.

2016

KCSE, ST. JOSEPHS SUGUBO

GPA of 75 (A-)

I actively participated and was awarded various awards in the field of science and engineering. Most of which were in the theoretical development of ideas related to programming and application development.

SKILLS

- Arduino
- Laravel web applications
- Flutter Mobile Applications
- Python Programming
- Email Integration
- MySQL databases
- Mpesa integration
- RESTful APIs
- Mikrotik networking
